Cast Scene changes should not be students running across stage. The scene change behind Eponine was clunky and chaos. NO Running. Do not walk in front of gate to get bench, walk behind gate, get bench put it away. Walk normal. ○

Eponine move farther to the stage L of audience earlier. Stop + sing those big notes, no walking thru them. ○

Cast: Don't spray haze until applause on my own. ○

Cast: Great open to barricade don't let the energy take over stay focused + in character. ○

Enjolras: Don't get too emotional w/ Gavroche. ○

Eponine + Marius - meet light mark. The fall was perfect!

Kaider: We have to go over your death be here early to review.

Tech let Javert walk off after he goes into "sewer" then drop cyc. - we had too much dead space w/ music + squeaky barricade moving.

Javert take time @ apron when looking. Don't move until Apron light is on.

Tech → This Apron light needs to be earlier.

Tech Bridge can move slower on in Swewers.

Cast - ~~3~~ spray haze behind cyc before it rises for sewers
